Googling

## INTERESTS

Web Development  
Reverse Engineering  
Cyber Security AI

## LANGUAGES

- Bengali
- English

## EXPERIENCES

### Full Stack Developer | Freelancing

2022 - Present

- Handled more than 10 clients and 15 projects.
- Built full stack app with React, NextJS and Astro.
- Built backend with Django, Express and PHP.
- Built desktop app with Tauri and React.

## PROJECTS

### Resume AI |

- NextJS Redux TailwindCSS TypeScript Django JWT PostgreSQL REST API
- An AI based CV screening application designed to simplify the recruitment process for HR professionals and enhance candidate experience. The system integrates Gemini 1.5 Pro for automated profile generation and CV summarization, offering significant improvements in efficiency and decision-making. Additionally, automated specialized feedback with reason and possible improvements for candidates.

### Cazzert - E-Commerce |

- Astro React Server Action JWT TypeScript REST API TailwindCSS PostgreSQL
- A fully responsive e-commerce site with vercel backend and custom CMS to control everything. Full warehouse managements, order tracking and everything built from scratch.
- Check Preview

### BSIL - Agency |

- Astro React Server Action JWT TypeScript REST API TailwindCSS PostgreSQL
- A fully responsive agency site with vercel backend and custom CMS to control everything. Everything in the site can be managed from admin panel.
- Check Preview

### Course Assistant |

- HTML CSS TailwindCSS JavaScript PHP Django SQL
- An allrounder helper for undergraduate student which solves real-life problems. It helps to track academic progress, share contents and group studey etc. One of the highlight feature is, it can automatically create chat group with students of same section of same trimester. Initially created with php, recently recreated with django.

## ACHIEVEMENTS

---

### UIU Project Show Champion Fall 2021

Dec 2021, United City, Dhaka, Bangladesh

- in this competition I had lead a team of 4 members. We created a web app called "Course Assistant" to manage everything related to a student's course/education. We won the competition among 30+ teams. Our professor even proposed launching a startup based on it.

Project 

---

### CCNA: Introduction to Networks | CISCO

Mar 2023

- Completed the CISCO Certified Network Associate: Introduction to Networks course with a 90% score.

Badge 

## EDUCATION

---

### B.Sc in Computer Science and Engineering | *Software Engineering Major*

 2020 - Present

 *United International University*

- CGPA: 3.35 (Present)
- Credit Completed: 127 out of 137 (Last Trimester)
